Welcome!

North
Dakota
Simmental
Association

Classic SALE

On behalf of the sale consignors I would like to welcome you to the 2010 North Dakota Simmental Classic Sale! This sale has developed a reputation as being a source of some of the top genetics available in the region. The demand for Simmental Cattle and Simmental-Influenced cattle has never been stronger. The cow numbers in the US have never been lower and the demand for quality beef continues to increase, which is creating a very strong demand for quality females to be utilized in the expansion process of the beef industry!

The offering for this year's sale was selected from the heart of every program involved. The programs in this sale have consistently had some of the top averaging bull sales in the country over the years. Many of the most influentially used A.I. sires in the industry have come from the programs in this event; so take advantage of the opportunity to incorporate those breed and market leading genetics into your program.

The bred heifers in this year's offering include individuals that will be top producers in any program. One of the strongest testimonials for this event is the way that the cattle that are selected out of this sale go on to be top producers for the programs they go to. As you go through the catalog you will find many individuals that go back to females selected from this very event as well as producing some of the top sellers in various production sales.

This years open offering is as strong as it has ever been! There are individuals that have the pedigree and performance to be top brood cows as well as individuals that will be very competitive in the show ring. Every year there are individuals that have been selected from this sale that are competitive in the show circuit and are also eligible for the ND State Fair Futurity.

You will also notice an elite set of SimAngus Genetics being offered in this year's sale. The demand for these genetics has driven producers to work as hard on this segment of their programs as the purebred segments. They have used top accuracy Angus genetics to produce/mate these individuals for the next step forward. Whether you have an established SimAngus Program or are looking for some breed-leading individuals to develop a program with; look at the individuals in this segment of the sale with confidence.

In addition to the live lots, there is a tremendous offering of elite genetics available to you through the Semen and Embryo lots available in this year's sale offering. These matings are from top individuals with proven track records that will give you an opportunity to advance your breeding program developments in short order.

We invite you to be with us on December 17, 2010 for the North Dakota Simmental Association Annual Meeting and Banquet. It is an excellent opportunity to visit with a tremendous cross section of the industry and is complimented by some excellent hospitality.

We encourage you to contact any of the consignors or the sales staff if you have any questions regarding the offering in the sale. You will find all of their contact info on the consignor's page of the catalog. We look forward to seeing you on December 18! Happy Holidays to all!!

*Sincerely;
Jeff Thomas and the Consignors of the 2010 NDSA Classic Sale*

STF MONTANA BLACK KF25
BCLR NORA N293

We are honored to provide this year's donation heifer. This heifer has a great deal of style and will make a nice addition to the lucky winner's herd!

Donation Heifer Auction Procedure

- The final bid in each round will denote the amount of that bidder's donation.
Round 1 – Final bid is \$300 to John Doe. John's donation is \$300.
Round 2 – Final Bid is \$250 to Joe Public. Joe's donation is \$250
Subsequent Rounds – the female is re-auctioned until no further bids are received at the low of \$10.
- Each \$10 donation represents one chance in the final draw.
In the example above, John has 30 changes and Joe has 25.
- One ticket for each \$10 donated, bearing the contributor's name, will be put into the drawing.
- At the end of the sale, one ticket will be drawn and that person will win the heifer.

ATTENTION

Junior Exhibitors

Make sure to purchase your
ND Futurity Show heifer here!

As in the past few years, the members of the ND Simmental Classic Sale and the members of the Northwest Select Sale will be holding a junior futurity show in conjunction with the ND State Fair show. All open females sold in these two sales will be eligible to compete at the ND State Fair in July 2011. The number of entries determines the number of classes. The show will be immediately following the NDJSA Show. Only the Champion and Reserve will receive a savings bond. The Champion will receive an \$800 savings bond and the Reserve Champion will receive a \$400 savings bond.

The only other requirement to compete in the futurity show is that you are a member of the ND Junior Simmental Association and the cost of the membership is \$5.00. We hope to see you at the ND State Fair and good luck!

For more information, contact Kelly Hanson at 701-769-2163

ND Simmental Association is holding the Photo Contest AGAIN!

Please submit your favorite photos as an 8x10, color photo and deliver to Farmer's Livestock by noon on Friday, December 17, 2010. Please include a piece of paper to identify yourself: name, address and division (youth or adult). The photos will become property of ND Simmental Association and you will not receive them back. The winners will be announced at the banquet on Friday evening.

The Association is always looking for new photos for the cover of the publication, so please submit any photos throughout the year that you think may be a possible cover photo to Todd Finke.

STF Dominance

BDV Sabrina Embryos

We at Sargeant Farms are excited to offer embryos out of our newest donor BDV Sabrina 6S13. When I saw her in the Begger catalog, I knew our search for a great red donor may have come to an end. She was described as a sound moving, well balanced cow that had a great set of EPD's. This great young cow has the future ahead of her and many have said that she has the look that her mother did at this age; we are hoping that they are correct. We are going to flush her just before Thanksgiving to the GCF Amigo bull that had a great show career and is known in the Genex line up. Soon after that we are planning to flush her to SVF Steel Force and STF Dominance, the 2010 NWSS champion bull. We are offering the choice of these matings – 3 embryos with a guarantee of 1 pregnancy out of these three breed-leading sires, if work is done by a certified embryologist. Please feel free to contact David 320-245-2830, if you have any questions about this great genetic opportunity. Current pictures will be posted for all our consignments on our website, www.sargeantfarms.com. Selling choice of 3 embryos, guaranteeing 1 pregnancy.

Ellingson Hummer Embryos

Selling Choice of 6 Embryos, Guaranteeing 3 Pregnancies

Here is an opportunity to select a very unique offering of genetics from a young donor, Ellingson Hummer T713, whose son – Ellingson Dominator W905 – created as much excitement as any individual last spring. Dominator topped the Ellingson Bull Sale at \$29,000 going to K&L Ranch of Almont, ND and then being leased by ABS. The groundwork has been established! The matings to "Olie" would be full sibs to Dominator 905W and the Grandmaster and TNT Tanker are equally intriguing. We are offering you the opportunity to select from any of the matings. Selection is not restricted to one of the matings. These embryos are exportable to Canada. We are offering you the opportunity to select 6 embryos with a guarantee of 3 pregnancies if transferred by a certified technician. Embryos are stored at Trans Ova, and will be transferred to new owner's name.

5A: 6 units • 5B: 10 units • 5C: 10 units

This joint offering from Traxinger Simmental and Thomas Brothers Simmental ties very well into the offering of the 2010 NDSA Classic Sale! The embryo offerings from Ellingson are out of a Hummer daughter and Western Cattle Source and Hayes Ranch both have Hummer daughters in the sale as well. HC Hummer 12M is a tried and proven herdsire that produces progeny that have tremendous eye appeal and phenotype. His EPD's are tremendously balanced and his granddam was equally as impressive and productive as any female in the breed! Successful bidder on first choice lot has option to take it all! Semen will be at sale site or it may be shipped at buyer's expense.

Pick of Bred Heifers

Offering Pick of Bred Heifers

Owner: Double J Farm - Garretson, SD

I didn't want to bring bred heifers home for this sale as our lots were so muddy and we had all kinds of grass. Told Jeff I was offering Pick of my Bred Heifers which consist of 35 registered Simmental Heifers which are all entered in THE with nothing held back. 14 of these are embryo transplants. They are ultrasounded safe AI except four head. Started AI'ing April 30 until May 21 with Olie, Shear Force, Dual Focus, Dream On, In Focus, and Bismarck used. Selection to be made prior to calving. Any Questions, call Kipp Julson 1-605-351-9088

• AI bred to Dikeman's Sure Bet (2294262) on 4/10/10.
• No exposure. Ultrasounded safe to AI date. Due 1/26/11.
This is a very attractive female out of Morgan's Direction and a TNT Top Cut daughter that was purchased from Bata Brothers at the 2007 ND Classic Sale. Her dam, MJ Miss Cisco, was also a top seller at the 2001 ND Classic Sale and has been used in their donor program. It is very hard to find any holes if any in this female. Her EPDs are as good as they come. Be sure to find her on sale day – you won't be disappointed.

• AI bred to SS Ebony's Grandmaster (2281133) on 5/17/10.
• PE to Sarge R5036 (2316697) from 5/30/10 to 7/22/10.
W9035 was one of the first Hearthstone Osage calves born that we know of. She is out of a Power Drive cow that goes back to the Ruby Red 33E cow. This bred heifer has plenty of rib shape and depth of side. She is a typical Power Drive female in that she has the length of body and the internal dimension to be able to survive on grass and produce a great calf year after year. If you are looking for cow families, here is one that needs to be on your short list come sale day. Log on to www.sargeantfarms.com for current photos prior to the sale.

• PE to STAV Mr Apollo 920W (2503155) from 5/15/10 to 6/10/10. Ultrasounded safe to AI date.
RC Club King 040R has worked extremely well in our program and 906W is no exception to the quality level that can be expected. She possesses tremendous volume and performance as evidenced by her numbers. The mating to Grandmaster should be exceptional! As a first time participant in this event we felt we had to offer individuals that would represent our program and we feel she does so very well.

Here is a black brood cow in the making with an outcross pedigree. Wilda is fluid in her design, not to mention her depth and capacity. We really appreciate this cow family and her mother always raises one of our top calves. This is the type of female that you want to have in your program and bred to "Olie" is an added bonus.

• AI bred to GW Lucky Man 644N (2223338) on 5/7/10.
• Pasture exposed to Jacobson Basin 9068 (2529375) from 5/21/10 to 8/9/10.
Ultrasounded safe to AI date with a heifer calf.
Tri E Miss W515 is a very modern made heifer with a lot of eye appeal. Keegan showed her at the county and state fair, she is a sweetheart!! Her dam is an HC Hummer daughter (AI'd 3 times/bred to AI 3 times) that we purchased at this sale from Doug Bichler, as an open heifer because of her carcass merits. W515 is a Beef Maker/Hummer/Tonner/Americana/TNT Miss Tizzy. W515's ratios are as follows: BW 112, WW 107, YW 106, IMF 111 and REA 112. Her EPDs have her ranked in the top 1% for marbling, API and TI and in the top 5% for REA. W515 is a beautiful, bred, red, non-diluted, homozygous polled heifer. Ultrasounded safe to GW Lucky Man with a homozygous polled and heterozygous black heifer calf with projected EPDs in the top 1% for marbling, API and TI. We are very excited for the future owner of this cow and calf. She will be vet checked sale day.

• Pasture exposed to WCS Bluegrass 726T (2512036). Ultrasounded safe to AI date.
This red Shear Force female is outstanding. Long and clean fronted with great depth and shape of rib. Ms Red Force is wide and square hiped. She is an extremely sound and easy moving heifer - one of my favorite heifers. Super disposition. She has a good set of numbers wrapped up in an awesome phenotype. She could make your donor pen. She is mated to Cut Above, AKA Fat Butt. This could be an extremely good calf.

What an opportunity here! If you are looking for an outstanding outcross, Purebred female, then here she is. She is out of KS Ms Sierra who was the high-selling open heifer a couple of years ago at this sale. She is a granddaughter of the great donor cow, Kayla, for Kenner Simmentals. Her daughter is just like her and this female will follow in their footsteps! She is long and clean fronted with great length and depth of body. 958W is big topped and square hiped. She moves with a nice long, easy stride. I can't say enough good things about her! She wouldn't be for sale except I am committed to bringing my best to this sale. The bull she is bred to could produce an exciting calf for you.

A Red Teddy daughter out of a KS Bravado dam and an SS Starlight granddam. This female has a little more size, but still has the capacity and thickness that the industry wants. I believe she will be a no miss cow regardless of what you mate her to. Safe in calf to the great Freedom bull. Her first calf very well could be a bell ringer.

• Pasture exposed to Kinns Gunner 388W (2498403) from 5/20/10 to 7/30/10.
Ultrasounded safe with a bull calf due 2/19/11.
This 3/4 blood, red heifer's full sister sold to Traxinger Simmental in the 2010 Edge of the West Female Sale. The udder quality and fleshing ability of the Freedom daughters is hard to beat, and with this heifer carrying a bull calf, there is potential to make back the investment in the first year!

• Pasture exposed to CDI Certified (2430220) from 6/1/10 to 8/1/10. Vet checked safe to AI date.
Wilma is out of one of our best cow families and her dam raises a top end calf each year. Her dam is now going on 12 years old, purchased from Triple C as an open heifer, and the calves that we have sold out of her have topped our past sales. Wilma has a brother that topped our sale a few years ago that is a senior herd sire for Tri E Simmentals. Cow families make a difference and look at the longevity of this family. Wilma has a perfect balance of phenotype and genotype. We have been very impressed with our King Arthur calves and this combination should really work here.

• Pasture exposed to SSR Mr. Dream W26 (2520186) from 6/20/10 to 8/20/10. Ultrasounded safe to AI date with a heifer calf.
What a neat combination on this heifer! She is homo black, has strong maternal and carcass EPD's to match and is sired by Cisco Kidd, the top selling bull from our 2008 Dakota Xpress Sale to Kenner Simmentals. She is backed by the M67 cow, one of the strongest Joker daughters in our herd. This dam raised one of the top herd sires purchased by Nelson Livestock from Wibaux, MT in the 2005 Dakota Xpress Sale. The M67 cow consistently decreases birth weight and adds growth with strong maternals. She is a deep bodied, easy fleshing cow, with average ratios of 110 on BW, 101 on WW, 103 on YW, 125 on IMF and 103 on REA. With her individual REA of .71 and maternal milk of +15, all the homework is done on this pedigree. The granddam will have her 11th calf this spring on the ranch, showing that there is longevity built into the pedigree. She has the genetic potential to be a top donor cow in the near future. Just think of the genetic opportunity with the Shear Force heifer calf that she is carrying!

• Pasture exposed to SSR Mr. Dream W26 (2520186) from 6/20/10 to 8/20/10. Ultrasounded safe to AI date with a bull calf.

This solid red, Gunner daughter will make a very high maternal cow with these maternal sires in her pedigree, Big Sky, 600U, Lucky Deal, and Gunner. This cow family has a consistent light birth EPD. The individual indexes on this heifer were 102 at birth and 103 at weaning showing that she has carried on those genetics. The udder structure in this cow family and the consistency of the Gunner daughters will make this female an excellent maternal cow.

X0101 is a really stout made 3/4 blood female that has been liked by a lot of visitors this summer and fall. If you are looking for a thick topped, wide based female that walks on a big foot, you need to look at this female. She has loads of natural thickness, but yet she is still feminine enough for the most discriminative person. She was one of the final 5 animals in the pick we sold to Prairie View farms from Mo. X0101 is as quiet as a kitten, will make a great junior project. Log on to www.sargeantfarms.com for current photos prior to the sale.

KS MISS CORRELATOR S444

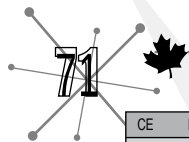

KS CORRELATOR N11

KS MELISSA P639

March calf that is stylish and carries a tremendous amount of rib and body. Her sire, Black Advance, is a bull we purchased from Lewis Farms in Canada. He has done a tremendous job so far! The Advance calves in the bull pen are favorites by all who come to look and we can't wait to see them by February! This will be the 2nd Advance heifer to sell, but the first in the US. One sold at the Canadian National Simmental Sale to Lewis Farms, of Spruce Grove, Alberta. She was bred by Bonchuk Farms of Manitoba and won her class at the Canadian National show.

MYTTY COUNTLESS 906

HSR MISS ABOVE PAR T855

BROOKS ABOVE PAR
P414

A balanced, 1/2 blood open heifer with a bright future ahead of her. Ms Fantasia has been shown at the West River Stock Show and was a complete doll to show. Her disposition and overall attitude would make her a great project heifer for a young Junior person. The EPD's of this heifer and what I know about her dam and granddam will make her a genetic asset to the most discriminate cattlemen.

PVF-BF BF26 BLACK JOKER

CNS SHEEZA DREAM K107W

Here is a calf we own with Hilbrand's in MN. This flush was by far the most consistent; her full brothers are all good. Miley is a moderate framed heifer with good bone, good hair, and a great disposition. My 6-yr-old leads her around the farm and its going to be hard to see her go. Her mother is a maternal sister to Dream On and her sire, SOS, has been siring some show toppers.
