The following terms and conditions have been agreed on by the North Dakota & South Dakota Simmental Association's Board of Directors and the Publication Committee.

Advertising Space Rates

Size	4C
Full Page	\$625
½ Page	\$450
¼ Page	\$250
Business Card	\$200 (per year)

Advertising Deadlines

Issue	Deadline
February	January 15, 2019
November	October 11, 2019
January	December 6, 2019

Terms

All advertising accounts are due and payable as invoiced. Interest charges of 1% per month will be assessed to accounts that are 30 days past due.

Delinquent Advertiser's Account

Advertisers knowingly and expressly agree and consent that, whenever accounts receivable for an advertiser have not been paid as of 90 days from date involved, advertising privileges will be suspended until full payment has been received.

Copy Changes

Alterations in advertising copy, if requested after closing dates will be permitted only if time allows.

The North Dakota & South Dakota Simmental Associations and this publication reserve the right to refuse any advertising copy at our sole discretion. The North Dakota & South Dakota Simmental Associations and this publication assume no responsibility for the accuracy of the advertising content submitted. Advertisers assume all responsibility for the accuracy and truthfulness of submitted advertising containing pedigrees or statements regarding performance.

Editorial Content

Opinions expressed are those of the writer and not necessarily those of the North Dakota & South Dakota Simmental Associations or of this publications. Photographs and manuscripts are welcome, but no responsibility is assumed either while in transit or while in this office.

About the Cover

South Dakota producers, 3C Christensen Ranch, trail cows from fall pasture to winter grazing as snowflakes begin to cover the plains in early December.

Submitted by Cam Fagerhaug

Amy Stangeland
Editor

FROM THE EDITOR

Happy 2019 Cattle Producers,

With a new year it calls for a new perspective, whether it be in our own personal lives, our families, or our businesses, we take a step back reflect on the past and look forward to what we can improve in the new year!!!

I'd say the Simmental Breed is doing the same, reflecting on past production but looking forward to what we can improve to better the industry of Simmental Cattle.

The American Simmental Association (ASA) has recently released a number of programs to help the Simmental data become more accurate. Some of those new programs being, BOLT, CHR, Carcass program, & feeder profit calculator. You can find more information on these new programs on the American Simmental Associations website www.simmental.org. I encourage you to check it out!!

Both ND and SD members are doing a great job of taking advantage of all the new technology and programs that are being offered by the ASA to make better genetics each year for the commercial industry, and I'd say it's paying off!!! Keep up the good work and let's work to have another great year in the Simmental Breed.

Congratulations to both ND and SD on two successful state sales again in 2018. You will find highlights throughout this issue about the ND sale and banquet. Be sure to check back in the Feb issue to find Highlights and photos from the SD state banquet and sale.

Happy Sale Season, Amy Stangeland

NDJSA RECOGNIZES MEMBERS OF THE YEAR

NDJSA SENIOR OF THE YEAR

Written by Liz Anderson

Haley Anderson raises Simmental cattle on a commercial based operation with her family. She transfers her love and passion of cattle to the show ring. You will see her competing at the state and national level. This past summer she competed at the AJSA National Classic in St. Paul, MN with a highlight of making her way to the she Senior Showmanship finals. She has also earned titles at the North Dakota State Fair, being named the FFA Beef Champion Showman three times, the 4-H Senior Champion Showman and the 2017 North Dakota State Fair 4-H Round Robin Champion Showman. Haley has exhibited the Champion 4-H Simmental-Influenced heifer at the State Fair as well as numerous county fair Simmental champions. She is currently the North Dakota Points Show Association President and the secretary for the North Dakota Junior Simmental Association. She attends May-

ville State University where she is a business major with a minor in coaching. She is also a member of the MSU Comets basketball team, a Recruit Ambassador for MSU basketball, a member of the Student Athletic Advisory Committee Club and is on the MSU Dean's list. After graduation she plans on moving back to the family farm and ranch to work with her Dad while building a herd of her own until she can take over the operation.

NDJSA JUNIOR OF THE YEAR

Written by Karaoke Reiser

Kadence Reiser is one of the first to volunteer and go outside and help with the cattle on her family's ranch. She started her herd by purchasing a registered heifer at age four with her parents help and continues to build her herd. Since 2011 she has been a member of the North Dakota Junior Simmental Association and the North Dakota Junior Points Show Association. Besides her involvement in the

cattle industry she also is a ten year member of her local 4-H club, a three year member of her local FFA chapter, competing on the livestock judging team and Ag Sales contests. She also participates in volleyball, basketball and choir.

Kadence has showed cattle since she was six years old, starting with a pail calf named Teddy. Since starting her show career Kadence has shown Simmental and Sim-Influence cattle at the county fair, North Dakota State Fair and North Dakota Junior Points Show Association shows. Kadence exhibits determination and dedication with her show heifers by waking up early and staying up late to care for her cattle and keep up with school and activity schedules. She helps with all duties of the day to day operation of the ranch, from fixing fence to making hay to working cows. She even learned how to drench calves this year, by the guidance of her older sister because she didn't want to do it herself.

Annual Production Sale

Feb. 1, 2019

At the Ranch • New Salem, ND • 1 P.M. CST

55 BULLS • 46 BRED HEIFERS

(1) Arnold Woodbury receives the Pioneer Award from NDSA Board member Tim Clark. (2) The Doll Family of New Salem, ND, receives the Promoter of the Year Award. (3) Preston & Renae Stewart from Carson, ND receive the Commercial Producer Award at the banquet.

NDSA BANQUET AWARD HONOREES

PIONEER AWARD

Written by Tim Clark

With the 50th year celebration of the Simmental Association, it is an honor and privilege to introduce our ND Simmental Association 2018 Pioneer award recipient. A Simmental promoter since the early years, he holds ASA number 1799. He attended the first Simmental organizational meeting in Bismarck, which Don Vaniman attending and organizing. His says ASA number would have been in the double digits if he had joined at that time. Membership was \$150 but he didn't have the \$150 to join. But became a member shortly after.

Arnold Woodbury began ranching and farming on his current operation in 1964. His first calf crop average 375 pounds, so Arnie began AI'ing and increased his weaning weights to 500 pounds over the next 5 years. Then began using Simmental bulls, Galant was the first bull he used and increased his weaning weights to 600 pounds with his first cross. Increased to 700 pounds with his 2nd generation.

With those results, Arnie has used Simmentals ever since and never looked back. Arnold, along with his wife Lynn ran under Woodbury Stock Farm, they sold females in State sale from the beginning. He continues to sell around 50 bulls a year private treaty. Their first female registered was WSF Galero 103, registration number 0035827, she was a Galant daughter. He was President of the ND Simmental Association in 1979 and again in 1982. He was awarded the ND Simmental Association Promoter of the year in 1987. In the late 70's, Arnie along with Tom Anderson began a sale management business and conducted many sales around the area. Probably the most famous was the Pride of the Northland Sale in Moorhead and Fargo. They began this sale in Moorhead at the Regency Hotel. Where they had the cattle on display in the parking lot and ran the cattle thru a ring in the ballroom of the hotel. After several years they moved it to the Doublewood in Fargo and then to the Civic center in Fargo. They also managed the ND Bull Test sale.

The biggest one was held at the Lone Steer in Steele ND. He was also instrumental in getting Simmental cattle into the ND Winter Show. It took 2 years of negotiation to get the Simmental breed to be added to the show. Even then they were on immediate probation and if numbers fell below 30 head they would be eliminated. There were also not allowed to be in the barn with at the same time as the Hereford, Angus and other breeds. They had to show before the other breeds came in.

Arnie has served on many boards throughout his years of farming and ranching. He served on the ND Simmental board, ND Winter Show Board, Crookston Winter Show Board, ND Sunflower board, along with many local and county boards.

PROMOTER OF THE YEAR AWARD

Written by Dusty Kunkel

This year's Promoter of the Year Award recipient has deep roots in the Simmental breed. The family has an ASA number of 292 and the 7th one issued in North Dakota. Their mom, Helen, went to a meeting in Bismarck, where Dean Olson informed people about a new breed called Simmental. At the same time of the meeting, their dad, Joe, was in Montana at a Charolais bull sale. When Joe got back, Helen told him about the information that Dean Olson presented. She convinced him that they too should start using Simmental genetics. The next spring, they AI'd some cows to the bull Bismarck.

This family actively supports the State Sale every year. Also, all of their children belonged to 4H and show cattle at the Morton County Fair. Today, they farm and ranch East of New Salem. They raise wheat, barley, soybeans, corn, and sunflowers. Doll's also calve out two purebred herds. They will hold the 39th Annual Doll Charolais and Simmental Bull and Female Sale in March.

Doll Simmental Ranch consists of Charlie and wife Pam, along with their five children, Angela, Joey, Wesley, Casey and Ty; brother Harlan and wife Jodie, and their two daughters Hailie and Jacie; and the youngest brother David, and his wife Donna, and their

daughters Katie and Krysten. Their parents Helen and the late Joe Doll, are the roots of the operation, and Helen continues to have role in its success. Joe and Helen received the Pioneer Award in 2014.

COMMERCIAL CATTLEMAN AWARD

Written by JR Aufforth

The 2018 Commercial cattleman award goes to a young ranch family. Preston and Renee were High School Sweethearts graduating from Carson high in 2003. They both attended college, Preston Completing the carpentry program at BSC and Renee receiving a bachelors degree in Business Administration from Dickinson State. Preston purchased 15 bred heifers in 2004 starting his herd. They were married in 2007 and make their home on the family ranch which was established in 1898. They have 4 children, Christian, Julian, Trinity, and Kiara. Who are the 6th Generation on the ranch!

They ranch with Preston's parents Dan and Jackie Stewart. Combined they have expanded the herd to over 1000 commercial Angus and SIM Angus cows. In 2009 they went to an all natural program which limited options for increased weight gain. In 2010 they tried cross breeding with Simmental on their Angus cows. As they continue to replace their Angus herd sires with Simmental bulls they are continuing to notice a steady rise in weaning weight. The bull battery is now almost all purebred Simmental. They have been receiving carcass info back on their calves with the last data showing 97.9 % grading choice or higher, and they yielded 64.1%.

Behind most successful ranchers is a strong ranch wife. This place is no exception. Most of us are lucky enough to have a wife to help out when we need it, some even lucky enough to have them working beside them every day. Last spring I was able to witness this couple hauling pairs to grass. Renee was driving her own semi and pulling a pot load of cows. Not every ranch wife is willing to take on that task!

DIAMOND V RANCH

BIG SKY GENETIC SOURCE BULL SALE

Wednesday, February 6, 2019 // 12:30 PM

At the Ranch // Wibaux, MT

*Selling 160 Black Simmental
SimAngus™ & Angus Bulls*

Every bull selling is bred to survive and thrive in short grass country and convert grass to pounds. Raised under range conditions for cowmen and women that demand, moderate framed, low maintenance, easy keeping cattle, that calve easy, look good and weigh heavy at sale time. They are raised in an environment that can be very harsh with temperatures that range from extreme cold to very hot.

WE EMPLOY COWSENSE, COMMONSENSE, AND SCIENCE TO CREATE DOLLARS AND CENTS.

The bulls are genetically DNA tested, ultrasounded, and performance tested.

They have been selected by an experienced eye for soundness, disposition, foot and leg structure, and to have the power to sire heavy, well muscled calves, with eye appeal, and vigor. They are the kind that are in demand by the cow/calf man, the feeder, the packer, and the consumer.

From a program that puts heavy emphasis on the mother-cow, each and every bull selling has a dam that has an excellent udder, has maternal instincts, and knows how to mother her calf.

These bulls are bred to compliment British bred cattle, they work on Angus, baldy, and Hereford cows very well. They will in-

crease profitability, adding feed efficiency, pounds, and carcass merit.

Plan a presale visit, it will be worth your time. We are one of the Black Simmental Pioneers breeding them for 44 years.

BLACK SIMMENTAL IS WHAT WE DO.

These bulls are backed by a 100% no hassle first breeding season warrantee. FREE bull keep, semen test, and delivery in April.

Every bull walks through the ring on sale day, so you know what you're buying.

Visit our website: www.LaBatteSimmentals.com for information on our program and herd sires, plus a 2019 bull sale preview in late January.

Sale offering includes 70 Red, Black and Fullblood Bulls
and 20 Red and Black Polled Females

IPU 24E by IPU Red Deputy 25C

IPU 59E by Springcreek Liner 56U

IPU 164E by Crossroad Radium 789U

IPU 166E by Springcreek Spark Plug

IPU 132E by Outlaw Soda Pop

IPU 26E by CCR Cowboy Cut

The animals pictured above are examples of the those sold in our 2018 sale. They display the **depth, thickness, meat and muscle** emphasized in our breeding program. All our top bulls sell featuring many generations of polled red and black genetics. The Fullblood bulls are diluter-gene tested and many of the red and black bulls are polled and color tested. Photos of our 2019 sale bulls will be featured in our ad in the February 2019 issue..

We invite our American neighbours to our 39th annual sale, **"Where Cattlemen Come For Herd Bulls."** Take advantage of the strength of the US dollar versus the Canadian dollar to purchase your new herd bulls! **A bull purchased for \$8,000 CDN will cost approximately \$6,000 in US funds.**

We offer free wintering and semen testing, free delivery to central points with paperwork in order. Sight unseen purchase program available. To discuss your needs, or request a catalogue, call **Barry's cell at 306-815-7900.**

A special *Thank You* to 2018 customers representing US Simmental operations.

We sincerely appreciate the support we have received from our neighbours to the south over the years.

15th Annual "Holiday-Monday" Bull & Female Sale

Monday, February 18, 1 PM Sharp
Ste. Rose Auction Mart, Ste. Rose, MB

— only 3 hours from Bottineau, ND

Over 165 lots sell featuring the most outcross & diverse bloodlines in the Simmental breed.

A big Thank-You goes out to the following producers who made purchases in last year's sale.

AIA 176E

Sold to David Beuligen, New Salem, ND for \$14,000

AIA 156E

Sold to Travis Wadsworth, Hayti, SD for \$10,500

AIA 595E

Sold to Matt Abraham, Hazel, SD for \$10,500

AIA 195E

Sold to Travis Wadsworth, Hayti, SD for \$10,500

AIA 704E

Sold to Robert Rath, Tuttle, ND for \$9,000

AIA 490E

Sold to Zahn Ranch, Towner, ND for \$9,000

AIA 110E

Sold to Greg Zimbleman, Oaks, ND for \$6,500

AIA 111E

Sold to Triple V Ranch, Carrington, ND for \$10,000

AIA 85E

Sold to Mack Ranch, Pettibone, ND for \$9,000

The bulls pictured above are a prime example of what you will find in our 2019 offering.

You will only find these kinds of low birth weight, high weaning weight,
curve bender style bulls by shopping north of the 49th parallel at Rendezvous.
Save big with approx. 25% more buying power with the US/Canada dollar.

Watch for our sale catalog online in mid January or call/text for your personal hard copy. With 40 years of raising Simmentals & owning one of the most exclusive & idolized walking herdbull batteries in the country, make this your one stop shop for Simmental bulls this year. Contact David to discuss your herdbull needs or to try our popular sight unseen program.

MRL 24th Annual Bull Sale

Selling 180 Bulls
Saturday March 2, 2019

At the Ranch • Carievale, Sask (18 miles North of Sherwood, ND)

Herd Bulls Designed by Ranchers for Ranchers

- All bulls born, bred & developed right here at MRL
- Large sire groups $\frac{1}{2}$ and $\frac{3}{4}$ brothers Penfulls of uniform bulls in every category
- Sight Unseen Buyer's Program (Can't make it sale day? Give us a call. Almost 25% of our bulls sell SUS. Many repeat customers year after year.)
- Semen evaluated and guaranteed
- Free Delivery to the Dakotas and boundary states. We have the expertise to get your bulls delivered hassle free! (Our trailer is most likely going right past your gate.)
- Sound, rugged bulls developed on a high roughage ration (Born, bred and fed to work and stay working)
- Extra age bulls ready to cover some ground. Offering 50 coming 2-year-olds and January/February born yearlings.
- Genetically engineered to excel for the commercial cattleman. Calving ease, performance and packed full of maternal traits.

"The Bull Business" is what we do!

For over 40 years, we have been committed to and focused on providing herd bulls that will excel for commercial cowboys. Over the years, we have listened to our customers to provide herd bulls that work in today's industry under real world ranching conditions. Herd bulls that will sire calves with moderate birth weights, explosive growth, structural soundness with eye appeal and packed full of maternal power. Extra age bulls, Jan/Feb born yearlings and check out the large group of May/June coming 2-year-olds for 2018. Sound, rugged herd bulls that will cover some ground. No fluff, no puff. The top 180 bulls from our highly regarded cowherd of almost 700 mother cows and the most elite herd bulls in the business. Come see for yourself what keeps the commercial cowboys coming back year after year. Give us a call, text or email for a full color catalogue and bull video.

Thank you

to our US buyers the past few years.
25% of our bulls sell to top stockman
across the upper Midwest annually.

U.S. Dollar Advantage

Take advantage of the strong U.S.
dollar with a 25% buying advantage.

Sire:_____ Dam_____

Please include with form: \$40 entry fee & copy of registration paper

Send entries to: Clay Duxbury 19640 367th Ave St. Lawrence, SD 57373

Futurity Rules

1. Seller must be a member of the South Dakota Simmental Association
2. Junior must be a member of the South Dakota Junior Simmental Association
3. Futurity heifers or steers cannot be sold to immediate family members
4. Futurity animals must be shown by the SDJSA member who purchased the animal or a member of their immediate family
5. Heifers & Steers must be registered with the American Simmental Association as half-blood or greater Simmental. Registration paper must accompany entry form
6. \$40 non-refundable entry fee must accompany entry form. Entry fee can be split with the buyer or whatever agreement they come to
7. All entry fees plus added prize money will be awarded at the Futurity Show (both heifers & steers) which is held during the SD Summer Spotlight
8. Classes will be determined at the show
9. Heifers or Steers must be purchased at one of the following state sanctioned sales: SD State Simmental Source Sale, Sioux Empire Farm Show, Black Hills Stock Show, or the Watertown Winter Farm Show
10. Heifers & Steers must be entered at the sale in which they were purchased
11. Steers may be purchased by private treaty or at a state sale as long as the seller is a member of the SD Simmental Association
12. Deadline is March 31
13. Committee has the right to blood type any animal entered and can withhold any and all prize money until blood type has cleared. Blood typing will be done at the owner's expense

IGS RELEASES MULTI-BREED GENETIC EVALUATION POWERED BY BOLT

Bozeman, MT — International Genetic Solutions (IGS) is an unprecedented collaboration between progressive breed associations fervently committed to enhancing commercial profitability. The collaboration has yielded the world's largest genetic evaluation of beef cattle with over 17 million animals and 120,000+ genotypes.

In keeping with our commitment to the cattle industry, IGS is pleased to announce the IGS Multi-breed Genetic Evaluation powered by BOLT™. The new genetic evaluation provides more predictive EPDs, better use of genomics, more accurate accuracy reported with EPDs, all with weekly evaluations. The announcement ushers in a new era in genetic evaluation — an era made possible by a genetic evaluation system dubbed BOLT (Biometric Open Language Tools, owned by Theta Solutions, LLC).

The concept for BOLT started in 2014 as a research endeavor between the American Simmental Association (ASA) and Drs. Bruce Golden and Dorian Garrick. BOLT is, quite simply, the most revolutionary and powerful genetic evaluation system in existence. Its power allows IGS to leverage genetic evaluation methodology that was once thought to be untenable on large databases — methodology that significantly improves genetic prediction.

In December 2016, IGS published a multi-breed stayability, the industry's first EPD using BOLT and the first single-step methodology applied to a large beef cattle database. Since that time, the IGS genetic evaluation team has worked toward fully implementing BOLT with an automated system that enables weekly evaluations for an entire suite of EPDs. As of May 5th, 2018, ASA is the first of the IGS partners to publish a full suite of EPDs generated by the IGS Multi-breed Genetic Evaluation powered by BOLT. Each IGS partner has complete autonomy to determine the release date that best fits their organization. As such, the release of EPDs by the other IGS

partners is likely to be staggered over the next several weeks. As always, we look forward to your questions and comments about what you see.

Here are the notable changes in the evaluation:

Movement of EPDs and reranking. EPDs and indexes will change. These changes will be more dramatic for younger, lower accuracy cattle. The IGS team has tested the changes and proven the new EPDs result in superior predictions of genetic merit.

Shrinking of EPD range. You will notice a reduction in the range of EPDs for most traits. The IGS evaluation team tested the statistical veracity of the reduction and it has proven to be in line with expectations based on the genetic variation in the population.

Improved use of genomics. With the switch to the BOLT software, IGS will use single-step genomic evaluation on all EPDs. Single-step uses DNA markers, pedigree information, and phenotypic data simultaneously in the prediction of EPDs. Previously, molecular breeding values (MBVs) were calculated from the genomic information and those MBVs were blended in a separate procedure into the EPD predictions. The single-step method squeezes more information from the DNA markers than the previous approach allowed. Additionally, with single-step, the genomic information will not only enhance each EPD for the genotyped animals but also will be used in the EPD estimates of relatives.

It is well established that DNA markers vary greatly in their effect on traits — ranging from large to virtually no impact. To leverage this biological fact in a statistically advantageous manner, the BOLT single-step method only uses markers that have a meaningful impact on the traits of interest, while ignoring those that have little to no effect. Research has shown that by using this approach, BOLT reduces statistical “noise” and thereby increases the accuracy of the EPD prediction compared to other single-step methods.

It is important to note, continued collection of phenotypic records remains a vital part of genetic predictions. DNA testing will never replace the need to record and submit phenotypes.

More accurate accuracy. In the previous IGS evaluation platform, and all others in existence other than BOLT, the calculation of the accuracy associated with each EPD is achieved through “approximation” methods. It has long been known these methods are a less than optimal approach to the calculation of accuracy — tending to overestimate accuracy. By employing unique computing strategies that leverage both software and hardware efficiencies, BOLT performs what was previously unthinkable — utilizing a sampling methodology to calculate what is essentially true accuracy. Unlike approximated accuracies, BOLT-derived accuracies will result in predicted movements associated with possible change holding true over time. This is not the case with the previous IGS software or any other system currently in existence.

While the IGS evaluation team and partners are excited to release this new chapter in genetic evaluation, the new genetic evaluation system will only realize its true potential if selection is made using its EPD and index values. Hands down, there is no better (more accurate) way to select for quantitative traits than an EPD. Economic indexes predict net profit by weighing the EPD for economically relevant traits coupled with economic estimates. To compete with other protein sources, it is imperative that the beef industry adopt the best science and technology to make better breeding selection decisions.

For more information about the IGS Multi-breed Genetic Evaluation powered by BOLT, go to www.internationalgeneticsolutions.com.
