The following terms and conditions have been agreed on by the North Dakota & South Dakota Simmental Association's Board of Directors and the Publication Committee.

Advertising Space Rates

Size	4C
Full Page	\$625
½ Page	\$450
¼ Page	\$250
Business Card	\$200 (per year)

Advertising Deadlines

Issue	Deadline
November	October 11, 2019
January	December 6, 2019
February	January 17, 2020

Terms

All advertising accounts are due and payable as invoiced. Interest charges of 1% per month will be assessed to accounts that are 30 days past due.

Delinquent Advertiser's Account

Advertisers knowingly and expressly agree and consent that, whenever accounts receivable for an advertiser have not been paid as of 90 days from date involved, advertising privileges will be suspended until full payment has been received.

Copy Changes

Alterations in advertising copy, if requested after closing dates will be permitted only if time allows.

The North Dakota & South Dakota Simmental Associations and this publication reserve the right to refuse any advertising copy at our sole discretion. The North Dakota & South Dakota Simmental Associations and this publication assume no responsibility for the accuracy of the advertising content submitted. Advertisers assume all responsibility for the accuracy and truthfulness of submitted advertising containing pedigrees or statements regarding performance.

Editorial Content

Opinions expressed are those of the writer and not necessarily those of the North Dakota & South Dakota Simmental Associations or of this publications. Photographs and manuscripts are welcome, but no responsibility is assumed either while in transit or while in this office.

Editor

FROM THE EDITOR

As I sit down to write this last issue of the season with a -13 degrees outside and an extended forecast with negative numbers, I can't help but find so much respect for the Breeders in the cattle industry!!! The hard work and drive that the producers have when weather like this hits truly amazes me! Just think what it would have been like 50 years ago!!!!!! Sales are still going on, Calves are still being born and Ranchers are still working hard each and everyday despite what's thrown their way. But aren't you glad the seasons will soon change and just like that it'll be time for breeding once again, pasture turn out, summer horse back rides to check the pastures, fall weaning, and the cycle continues year after year, with the rancher who just loves to do what they do! I'd just like to say Thank You and keep pressing on!

Throughout this February issue you will find the upcoming Sales for the Feb/March sale season. The SD highlights from the banquet and sale this past December. A few scholarship opportunities for the Jrs, and events to expect throughout the summer and fall before the Nov. issue comes out.

Have a great 2019 and we'll see ya again in November Folks!

Remember...

Work Hard, Eat Beef, & Pray for Rain...

Amy Stangeland

BRUNE ELECTED TO AMERICAN SIMMENTAL ASSOCIATION BOARD OF TRUSTEES

Bozeman, MT — J.W. Brune, of Overbrook, Kansas has been elected to the American Simmental Association (ASA) Board of Trustees, and will represent the North Central region.

Brune and his wife, Carol Lyon Brune, DVM, are the owners and managers of White Star Cattle Company. They maintain both a spring- and fall-calving herd consisting of purebred to percentage cattle marketed by a variety of means, including private treaty, bull test sales, and breeder group sales. A member of both the Missouri and Kansas Simmental Associations, Brune is also active in numerous other livestock organizations. A veteran of the US Army, he served a tour of

duty in Vietnam and received a Purple Heart for wounds received in combat.

Active for 32 years as a breeder of Simmental genetics, he has spent a total of 55 years breeding registered seedstock, and a previous term on the ASA Board from 2014 to 2016. Experienced in a wide range of aspects of the beef industry, he served as Executive Secretary of the Missouri Simmental Association, published the Simmental Message, was in great demand as a show judge, and has served as a mentor to countless junior members.

Brune was formally seated during ASA's 51st Annual Meeting held January 20, in Denver.

Also seated were newly elected Greg Walthall, Windsor, Missouri; and re-elected Tim Curran, Lone, California, and Clay Lassle, Glendive, Montana.

Founded in 1968, the American Simmental Association is headquartered in Bozeman, MT. ASA is committed to leveraging technology, education and collaboration to accelerate genetic profitability for the beef industry. In keeping with its commitment, ASA, along with its partners, formed International Genetic Solutions — the world's largest genetic evaluation of beef cattle.

Published by the American Simmental Association, January 21, 2019.

2019 NWSS HIGHLIGHTS

(1) Western area ASA Trustee & ND Simmental member, Tom Nelson, Wibaux, MT visits with ASA EVP Wade Shafer at the Meet & Greet. (2) Tim & Tam Clark, Turtle Lake, ND, visit with ASA Executive Vice President Wade Shafer at the ASA Meet & Greet. (3) North Central region ASA Trustee, Erika Kenner and sale manager, Doug Parke, Paris, KY, visit at the ASA Meet & Greet in the Yards at the Denver Stock Show.

(4) The ASA Committee Chairs sat at the head table as they all had to present their annual reports during the ASA Annual Meeting at the National Western Stock Show in Denver in January. L-r: Western region ASA Trustee, Clay Lassle, Glendive, MT, North Central Region Trustee, Erika Kenner, Leeds, ND and Steve Eichacker, Salem, SD and Eastern Trustee, Randy Moody, AL, listen as Wade Shafer gives his annual report during the ASA Annual Meeting. The Annual Meeting was broadcast online this year for the first time ever.

BUILDING BLOCKS OF COMMERCIAL GENETIC AWARENESS

By Lane Giess, American Simmental Association Director of Commercial and Nontraditional Data Programs

The commercial programs offered by the American Simmental Association (ASA) are an effort to provide genetic tools to the largest sector of the beef industry—the cattle operations. These efforts are supported through multiple ASA programs and the world's most comprehensive beef genetic database. The three pillars to ASA Commercial Programs are the: Total Herd Enrollment — Commercial option (THE-CM), Cow Herd DNA Roundup (CHR), and the IGS Feeder Profit Calculator™ (FPC). These programs allow commercial producers to maximize the genetic awareness surrounding their program and to make better management and selection decisions.

Each of these programs are designed to offer assistance at three key management moments in commercial operations; Breeding, Heifer Selection, and Weaning. This article will briefly dive into how each program functions.

TOTAL HERD ENROLLMENT — COMMERCIAL

The THE-CM is the foundation to these programs and allows participants to fully capitalize on the true genetic awareness of their cow herd. This is a whole-herd reporting program that helps isolate the known genetic potential of every female owned. The industry's best metric for understanding genetic merit on individual animals is through an expected progeny difference (EPD). Simply put, an EPD describes the difference in production value

for a given trait compared to other cattle. These are all calculated through pedigree relationships and performance records — and genomics if desired. Selection indexes take that one step further by combining multiple economically relevant EPDs along with industry costs and thresholds into a prediction model. Seedstock breeders undoubtedly use EPDs and selection indexes to make mating decisions. Why shouldn't commercial producers have the same technology?

Follow this link to learn more about THE-CM: www.simmental.org/commercial

COW HERD DNA ROUNDUP

The CHR is an opportunity to push the accelerator on female genetic awareness. Every cattleman knows which cow is his best producer, but do they know right away which replacement heifer will fill that role? The field of genomics allows us to gain a better understanding of a young heifer's genetic potential even before she starts producing. This technology uses known regions on the bovine genome that impact specific economically relevant traits. For example, longevity in cattle is known once they've been in production for almost a generation, but producers would hope to know that information before they invested time and money in replacements. Through genomics, we can use known genetic markers to give an indication of whether a female may last in the herd longer (or shorter)

than others. The CHR will provide years of information before you have to invest years of time.

Follow this link to learn more about CHR: www.simmental.org/chr

IGS FEEDER PROFIT CALCULATOR™

While the other two programs are focused around the cow herd, the FPC is centered around where commercial producers make ends meet. They've invested a lot of time and money into not only their cow herd, but also their bull battery because they know the role genetics play in the end product. They've also invested in their management protocols to ensure the feeder calves they raise will stay healthy and perform in the feedlot. These investments help producers stay profitable and build a more valuable feeder calf, but are their buyers aware of their commitment? The FPC is a third-party view of the profit potential on a calf crop through the understanding of genetics, health, and management. Buyers want low-risk, high-potential calves with earning potential. Producers want to highlight that their calves fit potential buyer's needs. As opposed to traditional marketing slogans and empty statements let's provide true awareness. We can Know or Guess. Choose Know.

Follow this link to learn more about the FPC: www.internationalgeneticsolutions.com

MRL ^{25th} Annual Bull Sale

Saturday, March 2, 2019
At the Ranch • Carievale, Sask
(just 18 miles North of Sherwood, ND)

170 Bulls Sell

65 Purebred Red Polled Simmental Bulls
65 Purebred Black Polled Simmental Bulls
45 Registered Red and Black Angus Bulls
45 Age Advantage May born coming
two year old bulls

The Commercial Cattleman's
"One Stop Bull Shop"
For Elite Simmental & Red Angus Genetics

At MRL we have built a reputation around supplying Thick Beef Bulls to Commercial Cattlemen and standing behind them. Herdbulls packed full of economic and convenience traits that will accelerate your breeding program. Managing over 600 mother cows with limited manpower, these bulls are raised under ranch conditions similar to yours, and are developed on a silage-based ration to ensure soundness and longevity. Over 40 years of genetic selection with the commercial cattleman in mind: calving ease, consistency, natural thickness, maternal values and carcass traits bred right in. Give us a call, we would enjoy visiting about your operation and herdbull needs.

Thank You

to our U.S. buyers for the past several years. Almost 25% of our bulls have sold to some of the top breeders and commercial cattlemen in the Dakotas, Minnesota, and Nebraska annually. We have the experience and documentation to get your bulls to your yard hassle free! Take advantage of the us dollar with a 25% buying advantage!

*Call today for a sale book,
bull video or more information!*

Free Delivery

Come in your car? Just 18 miles

North of Sherwood, ND

We'll drop the bulls off in your yard or close to it. We have the experience and documents to get your bulls to your yard hassle free.

Semen Tested and 100% Guaranteed

Every bull is semen tested satisfactory before the sale. No surprises on bulls that don't work after the bull sales are over.

Volume Discounts

We supply the Quality, Quantity, and Selection to get your Bull Buying Needs done! 1 Day 1 Sale and save you money.

Affordable

Top Genetics Reasonably priced.

Extra Age Bulls

Our yearlings are January and February born, as well as a group of May born Coming 2 Year Old bulls ready to cover some ground and more cows!

Sight Unseen Buyers Program

We would love for you to join us at the ranch March 2 for the bull sale; but if you cannot, this program has worked very well for busy cattlemen unable to attend our sale. 20% of our bulls go to satisfied cattlemen each year, many repeat customers through our SUS program. It's simple: give us a call to discuss what you are looking for in your next herd sire. We know our cowherd very well and the genetics strengths of each and every bull offered. Together we will discuss which bulls will work best in your operation. We will personally hand pick and purchase your bulls for you within and quite often below your price range. Your next herd bull purchase is as close as your phone. Please contact Lee or Dave for more info on the program.
